## ABOUT US

Established in 1990, Kent Engineers (Pvt) Ltd is the leading engineering services provider in Sri Lanka. Kent is specialized in designing and building turnkey Mechanical, Electrical & Plumbing (MEP) projects in a rapidly developing sector in the economy.

Kent has a proven record of expertise in the design, procurement and installation of Mechanical, Electrical, Plumbing, Fire and Gas services for high rise apartments, star class hotels, hospitals, office complexes and many other kind of developments both nationally and internationally. We are also specialized in supply and installation of swimming pool equipment, sewerage & water treatment plants equipment, compressed air systems and steam systems.

We have established a well renowned reputation for our quality and reliable service over the past 26 years with a backbone of a highly qualified and dedicated team of experts. Kent has been focusing on understanding the needs of our clients and remains totally committed to meet their needs by bringing the best possible solutions for their complete satisfaction.

As a result of company's strict adherence to global quality management standards, KENT has been bestowed with ISO 9001 Quality Certification, OSHAS 18001 Health & Safety Management and ISO 14001 Environmental Management quality systems. We are rated EM1, the highest grading set by the Construction Industry Development Authority (CIDA) of Sri Lanka for, plumbing & drainage, fire detection, protection & suppression, electrical installation, mechanical ventilation & air conditioning and LP gas systems.

Please feel free to contact KENT on all your Mechanical, Electrical, Plumbing, Fire and Gas engineering and installation needs.
